Attention: WHO CA+ (Pandemic Treaty) being pushed in 194 countries

Dr. Fearne, Deputy Prime Minister & Minister for Health,

We write to you with grave concern about the dual role you will be responsible for, in conducting your new appointment as President of World Health Assembly 77 in May 2024 and the conflict that naturally occurs in such a situation.

In your capacity as President of WHA77 you will be responsible for the adoption of proposed amendments to the International Health Regulations 2005 (IHR) and the approval of the World Health Organisation (WHO) proposed CA+ (aka Pandemic Treaty).

Each of these decisions, should they be adopted/approved will result in a highly significant change to global public health governance, permanently undermining, even removing national sovereignty in a health emergency (planned, perceived, simulated or otherwise) and handing it over to the WHO (for the benefit of their sponsors and funders).

In your capacity as Deputy Prime Minister & Minister for Health you are responsible for protecting the Constitution of Malta, and the health & freedoms of her people.

We cannot allow an institution, the WHO, whose Executive Board members, Secretariat and Director-General, are unelected by citizens, to declare health emergencies based on mere suspicions of potential risk to threaten our constitutionally defined rights and freedoms. The WHO's decision-making structures and individuals cannot be held responsible for their decisions, and this is absolutely unacceptable. In a democracy, policymakers should be democratically elected and be held accountable, accordingly.

Unlike the WHO, you cannot deny accountability for wilful negligence and misconduct in knowingly breaching the Constitution of Malta and failing to serve the people of Malta. We therefore ask you to stand by what is Right for the Good of our Nation.

Silence is complicity.

"We kindly ask for your response to this email by Monday 16th Oct 2023.

Considering the gravity of this matter, we intend to publish our correspondence with our MPs as the public needs to know that our representatives are informed and well aware of the imminent threat to our Country 's Sovereignty and to its people's freedom and well-being."
