

To His Excellency The President of Malta  
Dr George Vella M.D.

Excellency

We kindly inform you that we have sent the email below to the Prime Minister including documents and links from doctors, scientists and other experts with information about the intentions of the World Health Organisation and statistics of excess deaths from Eurostat which are of great concern.

We would appreciate your kind attention to this matter.  
Yours sincerely,

Concerned citizens.

To the Honourable Prime Minister,  
Dr. Robert Abela LLD.

Please find hereunder documents for your perusal. On viewing this document and related links , you will understand why our concerns are justified and we would hope that you take this information seriously before Malta agrees to any Treaty with the World Health Organization blindly knowing that there is no turning back and leading us into a dystopian future.

We are informed that numerous countries around the world have a high percentage of excess deaths which are directly linked to the vaccine which the people of Malta are becoming increasingly aware of. We are extremely concerned because according to Eurostat Malta has the second highest number of deaths in Europe and yet these statistics are not available to the public.

We are informed that several international laboratories have concluded that the ingredients within the Pfizer and Moderna vials were manipulated and what was found in them, were not the original constituents presented to the FDA.

Despite the above, the World Health Organisation remains silent on these grave issues yet it continues to push these so called vaccines without the informed consent of the public.

The World Health Organisation has forfeited our trust and we do not want any association with it.

Yours Sincerely  
Concerned Citizens
